Abstain	No. of shares	-	Equivalent to	0%

of the total votes of Shareholders attending the meeting and having the right to vote.

Agenda 2

To acknowledge the Annual Report of the Board of Directors for the year 2013

The Chairman asked Mr. Khushroo Wadia, to report to the Meeting the operating results for the year 2013, which Mr. Khushroo Wadia reported as summarized below:

<u>Consolidated</u>	Unit : Million Baht		
	2013	2012 (Restated)	2011 (Restated)
Income from Construction	8,933	7,269	4,766
Total Income	9,044	7,310	4,822
Gross Margin	619	644	318
Percentage of Gross Margin	6.93%	8.86%	6.66%
Net Profit	448	464	165
Admin Exp./Total Income (Excluding Bad Debts)	3.19%	3.13%	4.26%
Total Assets	5,602	4,667	4,246
Total Liabilities	3,423	2,724	2,483
Shareholder's Equity	2,179	1,943	1,763
Backlog at the end of 2013	10,285	7,943	8,609

Mr. Khushroo Wadia added that percentage of Gross Margin in 2013 is slightly less than the previous year since there were some unforeseen costs which came up in a few projects. In spite of high value of turnover, the administrative expenses are under control and this is quite low when compared to other construction companies of the same size. The net profit of the year is translated into earnings per share (EPS) of 45 Satang. The increase in Assets

and Shareholders' Equity are reflected in the growing Balance Sheet. We had a healthy backlog at the end of the year which would be useful for us to achieve a reasonable value of income in this current year since we may not be able to increase the value of backlog substantially due to the current economic situation.

The split between income from public sector or government projects and private projects is around 20% and 80%, and as such, it would be observed that a substantial portion of our income is from the private sector. This will also protect us from a big drop in this current year because we will not be affected from the cancellation or postponement of mega projects from government like others whose work and income is more from a large proportion of government projects.

<u>Construction Income by Type of Work</u>	<u>Million Baht</u>	<u>Percentage</u>
1. Factories, Industrial	1,227	14%
2. General Buildings	3,355	37%
3. Commercial Buildings	2,959	33%
4. Hotels/Residential	536	6%
5. Civil Works, Highways	91	1%
6. Mass Transit	256	3%
7. Petrochemical, Energy	509	6%

After the presentation, the Chairman asked the Meeting for questions and comments.

Khun Jantana Prajerdchaiwong, Proxy holder from Khun Surachai Prajerdchaiwong

The reason for paying remuneration for E.Y Office Co., Ltd. higher than D.I.A. International Co., Ltd.?

Mr. Surasak Osathanugraha

The reason for CNT to change the Auditor from D.I.A International Co., Ltd. (DIA) to E.Y Office Co., Ltd. (EY) is because of the increased value and volume of our works during the past year compared to the capability and resources of DIA. which will not be able to provide good audit service to CNT in the next year. Therefore, we asked EY who used to provide audit services to CNT for many consecutive years before we changed to DIA. The remuneration for EY if compared with the other big 4 audit firms is not high and it is not much higher even when compared to the fee CNT used to pay EY 4 years before when EY were the auditors.

The Meeting had no further questions or comments. The Chairman asked the Meeting to consider approving the appointment of the Company's auditors for year 2014 and their remuneration.

After due consideration, the Meeting approved the appointment of the Company's auditors for year 2014 and their remuneration as proposed with the majority votes as follows:

Disapprove	No. of shares	10,000	Equivalent to	0.0013%
Abstain	No. of shares	5,500	Equivalent to	0.0007%

of the total votes of Shareholders attending the meeting and having the right to vote.

Agenda 9

The Chairman asked Mr. Khushroo Wadia to proceed with this Agenda item.

Mr. Khushroo Wadia informed the Meeting that according to the resolution of the annual general meeting of shareholders of year 2013 held on 10th April 2013 the shareholders resolved to approve an increase of the Company's registered capital from 686,452,102 shares at Baht 1 par value per share for the purpose of stock dividend payment of up to 501,453,102 shares and offering up to 175,000,000 shares to specific persons and/or institutional investors and/or specific investors by way of private placement.

However, pursuant to Clause 5 of the Notification of the Board of Governors of the Stock Exchange of Thailand regarding rule, conditions and procedures governing the disclosure of information in respect of Capital Increase of listed companies B.E. 2554, the allocation of newly issued ordinary shares under the general mandate was to be completed within the date on which the Company holds its next annual general meeting of the shareholders or within the date on which the law require the Company to hold its next annual general meeting of the shareholders, whichever is earlier. This date falls today.

In this regard, the Company has not been able to conduct the sale and allocation of any of the 175,000,000 shares to be offered by way of private placement as approved by the Shareholders within the above period and it is necessary for the Company to continue to tr7y and raise long term capital for the Company's business needs and therefore the above extension with other conditions remaining similar to the ones earlier approved for a period of 1 year after the date of the AGM, is now proposed for Shareholders' approval

The Board of Directors is authorized to consider and determine other details with regard to the allocation, including but not limited to (1) number of newly issued ordinary shares to be allocated, which may be lower than the above number of shares increased whether single or sequential allocation, period of the offering, offering price, terms of payment, conditions and other details with regard to such allocation of the new shares, (2) negotiation, entering into agreement and execution of documents and agreements in connection with the allocation of these new shares, (3) execution of applications for permission and waivers, and necessary evidence in connection with the allocation these new shares, as well as communicating, filing or applications for permissions or waivers, documents and evidence relevant authorities or agencies, having the Company's new shares listed on the Stock Exchange of Thailand and

being empowered to take any other action which is required and appropriate for the allocation of such new shares.

The offering price to be determined by the Board of Directors will not be less than (1) the par value of the shares and (2) 90% of the market price (or discount shall not be more than 10% of the market price). The market price for this purpose would be calculated by the weighted average price (trading) value divided by trading volume of the Company's shares not less than 7 consecutive business days but not longer than 15 consecutive days prior to the first subscription date offered to specific person.

Mr. Khushroo Wadia then updated the shareholders that the reason to increase long term funds of the Company is to 1) increase working capital because of the increase in turnover from around 4,000 MB a few years back to around 9,000MB in this current year, which is more than double. 2) increase in long term assets (land, buildings and equipment), which had already been done and we plan to continue to invest in more construction equipment for the benefit of the Company's long term needs. More investment in equipments can save on external equipment's rental. We have already bought a new plot of land and buildings at Sri Racha to store our equipment and to expand our steel fabrication capability and we have also purchased another plot of land to build our new head office at Bangna. These investments are for long term benefit of the Company and should be financed with long term funds and not short term funds. Apart from increasing the capital by issuing stock dividend, the intention to allocate new shares for Private Placement at reasonable price, is that the Company could get about 1,000 MB or more which is the original intention. However, the Thai Stock market had gone down with increased share price volatility and thereafter from the last quarter of the last year, the political disturbances and the resulting effect on Foreign Investors' confidence had taken a further toll on our ability to place the new shares at a reasonable price and as such, there weren't many investors who had the appetite and liquidity to invest at our asking price in our Company. So rather, than place shares at very low prices the management resorted to accessing debt for its cash-flow purposes. However, the need to raise long term funds in the form of equity to support the long term expansion of the Company is still very much present and we cannot drop this plan if we need to grow, and therefore, we propose that this 175,000,000 shares still be kept for allocation to new investors so that the company can raise the funds which are required for the long term benefit of the Company. Mr. Khushroo Wadia added that the increase of 175,000,000 shares will result in existing shareholders' shareholdings' dilution by about 15%, and with just 15% dilution of existing shareholdings the Company will be able to secure a lot of long term fund which is for the long term benefit of the Company.

After the presentation, the Chairman asked for questions and comments.

Khun Sunis Julkarat, shareholder

Would it be possible for the Company to offer to the existing shareholders and then leave it to each shareholder to consider buying a new share?

Mr. Khushroo Wadia

Thank you for being a long time shareholder. He explained that the rights issue to the existing shareholders can be done, but for the need to raise 1,000 MB by issuing shares at par value, the shareholders have to pay 1 Baht per share which some shareholders may not be able to afford and if they lose their right to subscribe their shares they will be diluted by 50%. In this respect and as it was generally done by the others, we take the advantage of our higher share price in the market much higher than the par value as well as the book value and try to allocate the share at close to the market price and much higher than the book value whereby the dilution to existing shareholders is around 15-17% only. With this

method, the Company can raise the same amount of funds of about Baht 1,000 million with low dilution and without stressing our existing shareholders.

However, certain shareholders who want to increase their shareholding can always do so by buying the shares from the Thai stock market at the market price which would be more beneficial to all our existing shareholders since current market price is double the current book value.

There were no further questions or comments, and as such, the Chairman asked the Meeting to consider approving the extension of the period for allotment of up to 175,000,000 newly issued ordinary shares of Baht 1 par value per share, offering to specific persons and/or institution investors and/or specific investors by way of private placement.

After due consideration, the Meeting approved the extension of the period of private placement for one year as proposed with the majority votes as follows:

Approve	No. of shares	765,696,778	Equivalent to	99.9980%
Disapprove	No. of shares	10,000	Equivalent to	0.0013%
Abstain	No. of shares	5,500	Equivalent to	0.0007%

of the total votes of Shareholders attending the meeting and having the right to vote.

At the end of the Agenda item 9, additional shareholders holding total 64,680 shares registered for the meeting, and thus the aggregate shares attending the meeting was 765,776,958 shares equal to 76.36 percent of the total paid-up shares,

Other business (if any)

Mr. Surasak Osathanugraha informed the Meeting that the Company will move to our new head office located at 727 La Salle Road, Bangna, Bangna District, Bangkok on 28 April 2014.

Khun Sunis Julkarat, Shareholder

The new office is located in the same Soi as the existing one, is this on the rental land or our own land?

Mr. Surasak Osathanugraha

The Company's head office was located on rental land for more than 20 years. The rental fee was 15-18MB per year and it increased every two years whereby we have to pay 20MB a year during the latter period of the rental contract period. This is the reason that we decided to invest in our own land and office building. The price of purchasing the plot of land, which is not far from our existing office is not high and the location is not affected our existing staff who are living nearby this area.

Khun Sunis Julkarat, Shareholder

Does the Company have its own land and is there any plan to build the office on our own land?

Mr. Surasak Osathanugraha

The Company has a 30 Rai plot of land at Nimitr Mai Road which during the past year, the Company invested about 70MB to build a training center which had already started operating since November last year. The Company had already bought a plot of land as explained above for our own office building. The Company also invested in new land and plant at Sri

Racha to expand our plant and steel fabrication yard and all plant's staffs have moved to new plant since December last year.

Mr. Choothana Tiyaphoom, proxy holder from Thai Investors Association

This is question from Thai Investors Association regarding the anti corruption campaign which is organized by Thai Institute of Directors (IOD) for private sector, does the Company have any intention to join this campaign?

Mr. Surasak Osathanugraha

Anti corruption is the crucial policy for all management. Construction business is highly susceptible to fraud and corruption, the Company has set a high level of awareness to prevent and the highest punishment if any staff were found guilty in all frauds. We are also interested to join this campaign with IOD.

Mr. Pichet Cheevanunthachai, Shareholder

Asking about investment policy in neighboring countries.

Mr. Khushroo Wadia

As all shareholders are aware, our economy especially the construction business is very challenging nowadays and we have two goals to be achieved in this period one being to maintain our staff as much as we can and not to lay off while our value of works reduce and the other being to give a satisfactory and reasonable return to our shareholders on their investment. It is the time that we decided we should "look within" by trying to develop ourselves, tighten our belts, cut down all un-necessary admin. expenses and do whatever we can to secure new projects. However, if the situation continues like this we have to consider to expand our business into neighboring countries which are now developing like Burma, Cambodia but not in the developed countries like Singapore or European countries. We can use our expertise and the different kind of experiences we have secured during our many years in Thailand to help in developing their countries such as mega projects, mass transportation etc. Moreover, the Company through the relationship of our Directors in various type of businesses and countries is now looking for opportunities to expand our business s in these countries. Currently, we are now studying the possibility and the risks to expand into these neighboring countries but it must be noted that this is our long term goal which cannot be achieved overnight.

Khun Suchada Saleepattana, proxy holder from Khun Somkiat Saleepattana

Opined that the place for this AGM is convenient but would like to improve the setting of screen in the Meeting room to be seen by all attendants and the collection of ballot to be more convenient.

The Chairman acknowledged her advice and promised to make an improvement in the next AGM.

Since there were no other Agenda Items to be discussed and no other questions or comments, the Chairman thanked all shareholders for their support in all the Company's activities, including this Meeting, and the Meeting was closed at 12.00 noon.
